FOR INFORM ERP SOFTWARE FOR

# ELECTRICAL DISTRIBUTORS

"Now, at the push of a button, we have eliminated unnecessary paperwork and automated the special ordering process." ~ Frank Capasso, Valley Lighting & Electric Supply

### MARKET-AWARE FEATURES

- Single screen order and payment entry
- Precise rebate calculations
- Line item delivery scheduler
- Vendor rebate management
- · Project pre-bill payment options
- Job tracking with quotes, orders, sales, purchases, and reporting
- Tasks, calendaring, and activity history
- Returned goods management
- Instant quotes and orders on the sales floor using mobile scanning

Inform ERP Software is the one integrated solution that will transform your business operations. DDI System provides the automation you need and delivers a quick return on your software investment.

## GET CLOSER TO YOUR CUSTOMER

DDI's Inform software's remarkable price matrix handles over 30 different combinations of product, customer and rebate contract pricing.

- Vendor-driven SPA (Special Pricing Allowances) pricing is made easy with contract pricing worksheets, MS Excel import and export.
- Advanced support for Trade Service's eDataFlex pricing and content files automates price updates.

## INDUSTRY-SPECIFIC WORKFLOWS

DDI introduces better workflows that transform your business into a more efficient, smoother running operation and designed for distributors like you.

- Eliminate paper-based business processes using DDI's proven paperless workflows.
- Integrated point-of-sale capabilities allow you to provide fast, personalized service with copy/paste, quantity first, or product first order entry options.
- Superior functionality for cut materials as well as wire/reel lot tracking.
- Electronic Signature Capture eliminates proof-of-delivery hassles and filing, saving thousands of dollars annually.

#### **Superior Inventory Management**

Identify sporadic, recurring and unusual demand to easily achieve higher fill rates, increase inventory turns, and eliminate dead stock. Inform's 'Automated Count Scheduler' replaces inaccurate annual counts with manageable and reliable daily counts.

#### **Unrivaled Warehouse Efficiency**

Optimize warehouse operations with industry leading features like wireless barcode scanning and real-time order and inventory management. Achieve high-efficiency and error-free inventory handling for single and multi-location warehouses, combined with real-time data from Inform ERP.

#### **Exceptional Multi-Channel Distribution**

Unify online and on-premise selling channels. DDI System's Inform eCommerce Pro offers customers a self-service portal to access and buy the products they need most, manage their payments and account, and browse other products your business has to offer.

#### **Project & Payment Management Made Easy**

Handle multiple shipments and payment options with precision. Inform easily accommodates your customers' requests to deliver only rough-in products or specific rooms, while carefully tracking previous shipments and payments, and maintaining deposit thresholds. Users quickly manage partial deliveries and 'take now' items with visibility into inventory, warehouse staging location, and cash application.

#### **Experience Best-in-Class Transitions & Training**

DDI System's 26+ year track record of delivering well-managed projects and seamless transitions are the core of your success. Our consultative approach allows us to fine-tune the market-aware workflows that best fit your company's needs. Our team of data migration experts will collect and convert your account data with 100% accuracy. Continuous on-and off-site training accelerates your teams' success.
