

# ELECTRONIC SIGNATURE CAPTURE

FOR INFORM ERP SOFTWARE USERS

Proof of delivery options for today's digital world

Electronic Signature Capture lets you digitally imprint proof-of-delivery signatures on your customers' invoices. Collect signatures via mobile devices and stationary point-of-sale signature pads. The system automatically attaches electronic signatures to the appropriate sales order and invoice.

## IMPROVE A/R COLLECTION WITH THIS PAPERLESS WORKFLOW

Eliminate time-consuming tasks of filing signed shipping tickets and proof-of-delivery phone calls. View, email, fax or print signatures from any PC.

## Electronic Proof of Delivery Utilizing Today's Most Popular Mobile Devices

**Wireless Connection** - Synchronize your Apple and Android devices without hard wired connections.

**Enhanced Functionality** - Delivery drivers can add photos and notes to deliveries, which are also stored in the invoice.

**Easy Download** - With a couple clicks, download truck manifests and delivery schedules to individual driver's devices.

**Instant Upload** - Once drivers return to the office, collected signatures, photos and notes are quickly uploaded and attached to the invoice. Invoices can be optionally set up to automatically send through DDI's Inform ERP Software.

Turn every customer invoice into a signed 'proof-of-delivery' document

### COUNTER SALES PROOF OF DELIVERY OPTIONS

Signatures captured at your sales counter are automatically attached to the sales order, allowing customers to see their signature when receipt is printed.

Capture Pad Options - DDI offers a variety of capture pads. Speak to DDI System to choose the one to better suit your business operations
